STRATEGIC PRESENTATION FOR BERJAYA CORPORATION BHD

Prepared by: Dr. Ivan Chew

March 2026

Executive Summary

One Stack. Multiple Product Streams.

We are a tech-driven, 100% Malaysian-owned company providing infrastructure, platforms, and expertise to help Fintechs and lenders build, operate, and grow their businesses.

TrueKredit™

Core lending system for KPKT money lenders and digital license projects

TrueKredit™ Pro

Advanced digital lending stack with loan origination, digital signing, and attestation modules

Core™ Infrastructure

e-KYC, credit reports, SSM APIs, digital signing, workflow orchestration, and more

Strategic Platforms & Partnerships

e-Sumpah, Enqura Malaysia, and LandStore.my — all on the same stack

The Strategic Opportunity

Malaysia's non-bank financial landscape is rapidly digitizing — and the window to own that technology layer is open now.

Lending Operators Need Modern Systems

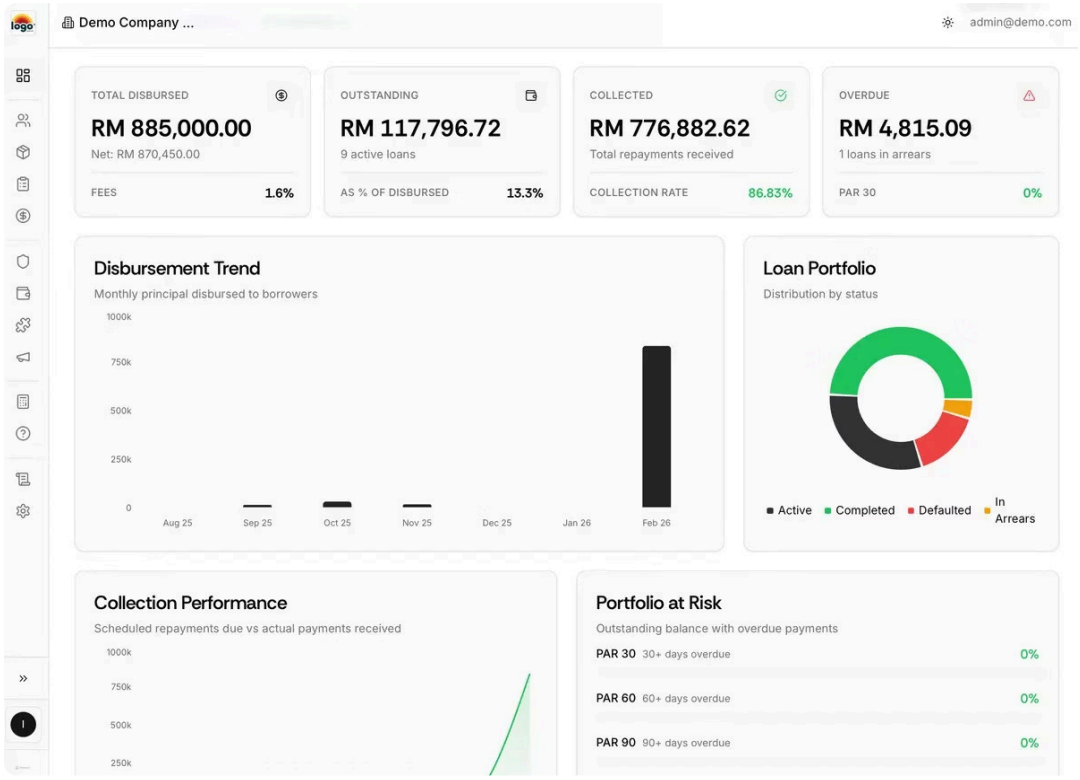
Onboarding, processing, collections, compliance, and reporting — all demanding a new generation of purpose-built platforms.

Digital License Projects Require More

Online lending initiatives need a far more capable & compliant operating stack than legacy lenders currently deploy.

Adjacent Workflows Are Also Moving

Legal verification, attestation, and transaction workflows are converging toward the same digital infrastructure.



TrueKredit™: Our Core Lending System

Designed for Malaysia's non-bank lending market — serving both traditional KPKT money lenders, digital license online lending initiatives, and P2P lending platforms.

https://kredit.truestack.my

- Borrower Onboarding
- Loan Workflow Management
- Repayment & Collections
- Reporting & Compliance

TrueKredit™ Pro: Our Digital Lending Stack

TrueKredit™ Pro is the expanded platform for higher-spec digital lending deployments — moving TrueStack from a core LMS provider into a full digital lending operating system.

On-Prem Digital Signing

Compliant, CA-backed document execution within the lending workflow

Attestation Workflows

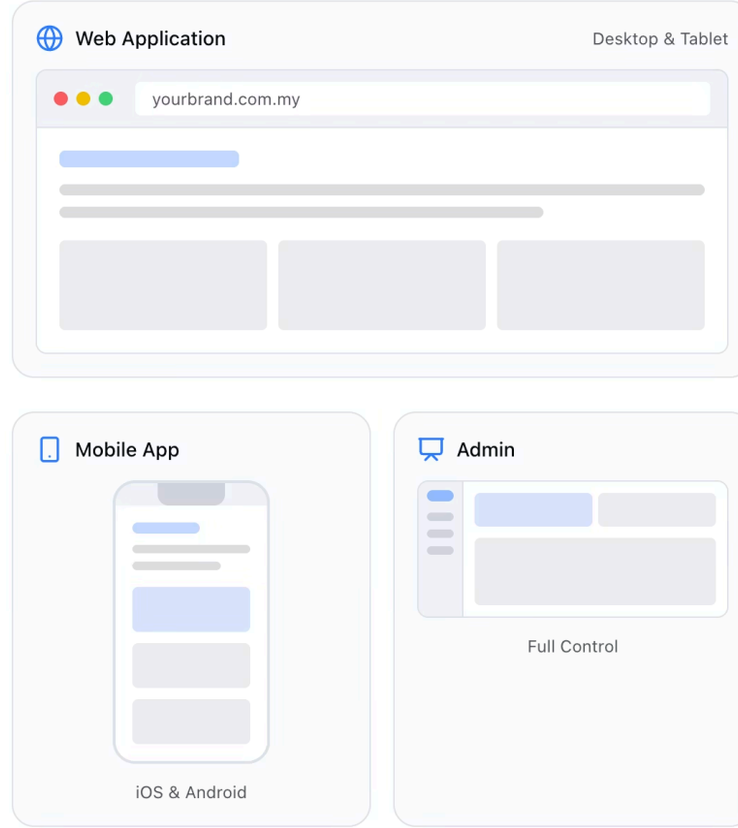
Structured verification and approval processes built for regulated environments

Borrower Origination

Web and mobile app onboarding journeys for end-to-end digital loan origination

Enhanced Automation

Advanced workflow orchestration and integration-readiness for enterprise deployments



Infrastructure Strategy

Built Upon Our Core™ Infrastructure

Our solutions across lending, legal-tech, property-finance, and enterprise digital transaction platforms are built upon our core infrastructure building blocks.

This dramatically reduces build cost and time to market for every new opportunity.

9+
Shared infrastructure modules

60%
Faster time to market on new platforms

4
Product verticals powered by one core

Commercial Validation

Execution: 2026 Software Development Orderbook

RM 8.42M

Total Revenue

Orderbook as of March 2026

~70%

Gross Margin

Strong software-led profitability

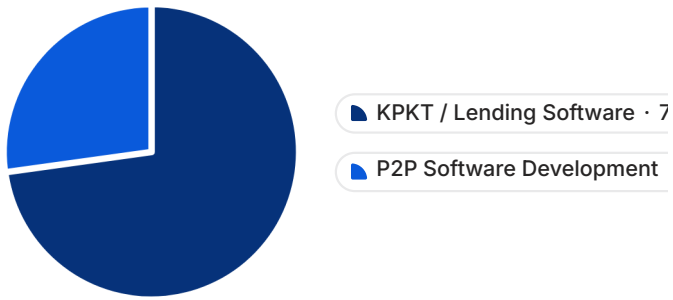
RM 5.89M

Gross Profit

To be realized in 2026

Meaningful commercial traction already exists in sectors that leverage TrueKredit™ and Core™ Infrastructure.

In 2026, our goal is to expand the capabilities of Core™ and grow into adjacent platform-based strategic opportunities that will bring in recurring revenue, while continuing to grow our services client base.



STRATEGIC OPPORTUNITY 1

e-Sumpah: Digital Commissioning of Oaths

A national-scale regulated transaction platform powered by TrueStack's core infrastructure — e-KYC, digital signing, attestation, secure remote workflow, and compliance systems.

This is a project that we have proposed to the Malaysian government and is in the advanced stages of approval.

High Visibility

Public/private digital workflow with national reach and government relevance

Transaction-Led Model

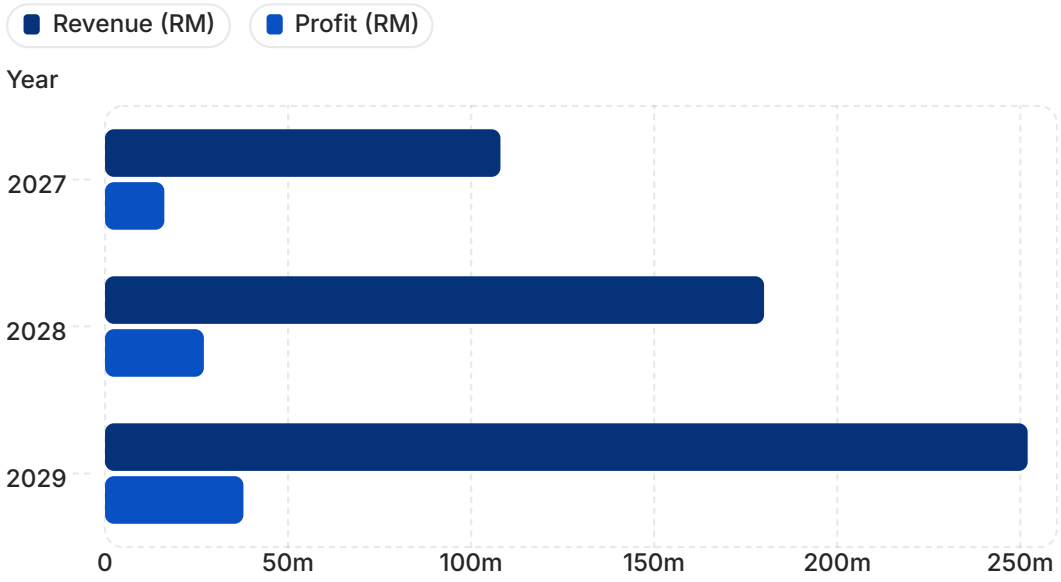
Per-transaction revenue at scale with low marginal cost per unit

Infrastructure Leverage

Extends TrueStack beyond lending into regulated legal and trust workflows

e-Sumpah Financial Potential

Platform-Scale Revenue Driven by Adoption



Adoption-Driven Growth

Year	Adoption	Transactions
2027	30%	7.2M
2028	50%	12.0M
2029	70%	16.8M

At a 15% profit margin, e-Sumpah alone could generate **RM 37.8M in annual gross profit by 2029.**

All built on our existing Core™ Infrastructure.

Enqura

STRATEGIC OPPORTUNITY 2

Enqura Malaysia Systems Integration

TrueStack as the preferred Malaysia systems integration and delivery partner for Enqura's broader financial technology stack — opening a pathway to enterprise-grade implementations.

Enterprise Distribution

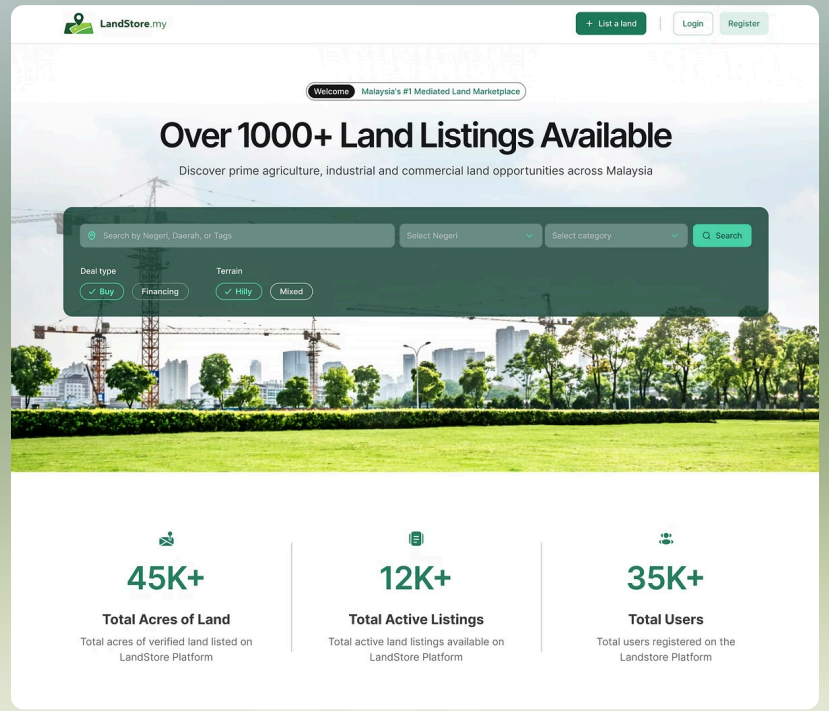
Access to larger institutional and enterprise-scale project opportunities

Existing Capability Fit

Identity, authentication, orchestration, and digital channels — all already built

Commercial Credibility

Larger-ticket project wins elevate TrueStack's market positioning significantly



STRATEGIC OPPORTUNITY 3

LandStore.my - Land Bank Proptech Platform

Unlocking underutilized land - we connect land owners with developers / buyers and provide the financial rails to make the deals happen with low interest loans from financing partners.

Large Value Pool

RM 15B+ total land value base with significant untapped potential

Strategic Ecosystem Fit

Property-linked and financing-linked workflows

Infrastructure Reuse

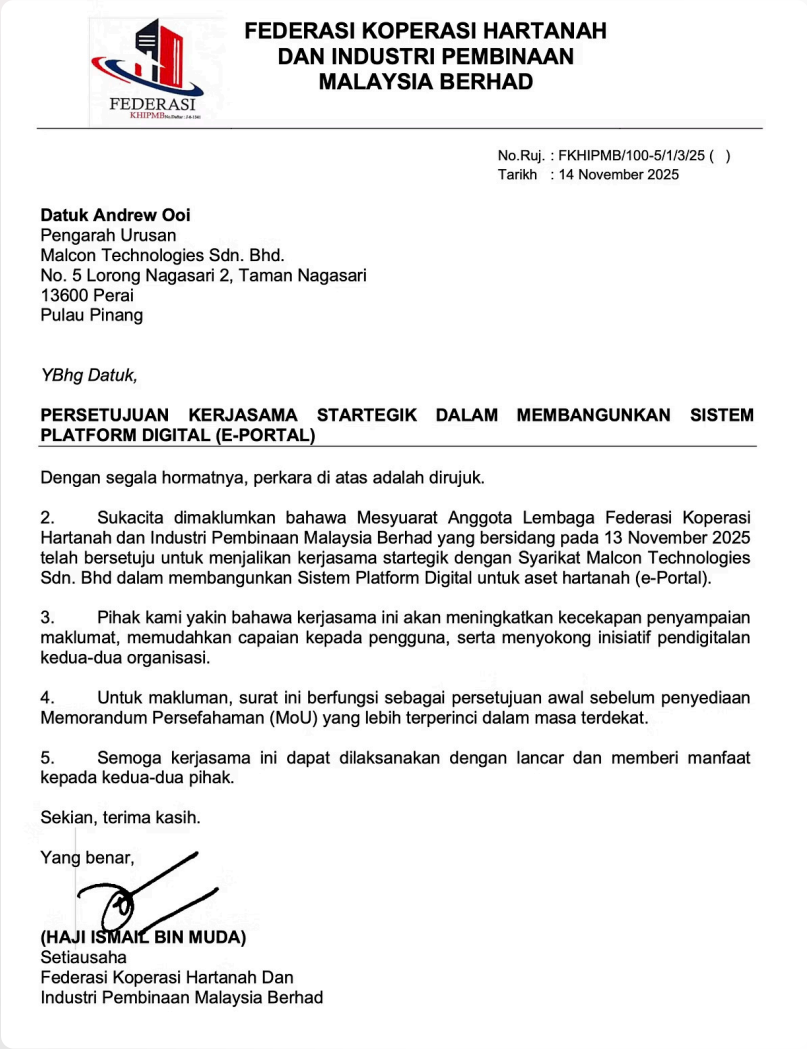
Built on the same core — registry, verification, workflow, and transaction layers

LandStore.my - Partnership with Federasi Koperasi

We have proposed this project to Federasi Koperasi Hartanah with a strategic collaboration obtained specifically for Koperasi-owned land.

We are also exploring a partnership with Bank Rakyat to offer low interest financing for JV collaborations between Koperasi and vetted developers through LandStore.my.

This platform is currently in the early stages of implementation, and we target to be operational by Q3 2026.



FEDERASI KOPERASI HARTANAH DAN INDUSTRI PEMBINAAN MALAYSIA BERHAD

No.Ruj. : FKHIPMB/100-5/1/3/25 ( )
Tarikh : 14 November 2025

Datuk Andrew Ooi
Pengarah Urusan
Malcon Technologies Sdn. Bhd.
No. 5 Lorong Nagasari 2, Taman Nagasari
13600 Perai
Pulau Pinang

YBhg Datuk,

PERSETUJUAN KERJASAMA STARTEGIK DALAM MEMBANGUNKAN SISTEM PLATFORM DIGITAL (E-PORTAL)

Dengan segala hormatnya, perkara di atas adalah dirujuk.

2. Sukacita dimaklumkan bahawa Mesyuarat Anggota Lembaga Federasi Koperasi Hartanah dan Industri Pembinaan Malaysia Berhad yang bersidang pada 13 November 2025 telah bersetuju untuk menjalikan kerjasama startegik dengan Syarikat Malcon Technologies Sdn. Bhd dalam membangunkan Sistem Platform Digital untuk aset hartanah (e-Portal).

3. Pihak kami yakin bahawa kerjasama ini akan meningkatkan kecekapan penyampaian maklumat, memudahkan capaian kepada pengguna, serta menyokong inisiatif pendigitalan kedua-dua organisasi.

4. Untuk makluman, surat ini berfungsi sebagai persetujuan awal sebelum penyediaan Memorandum Persefahaman (MoU) yang lebih terperinci dalam masa terdekat.

5. Semoga kerjasama ini dapat dilaksanakan dengan lancar dan memberi manfaat kepada kedua-dua pihak.

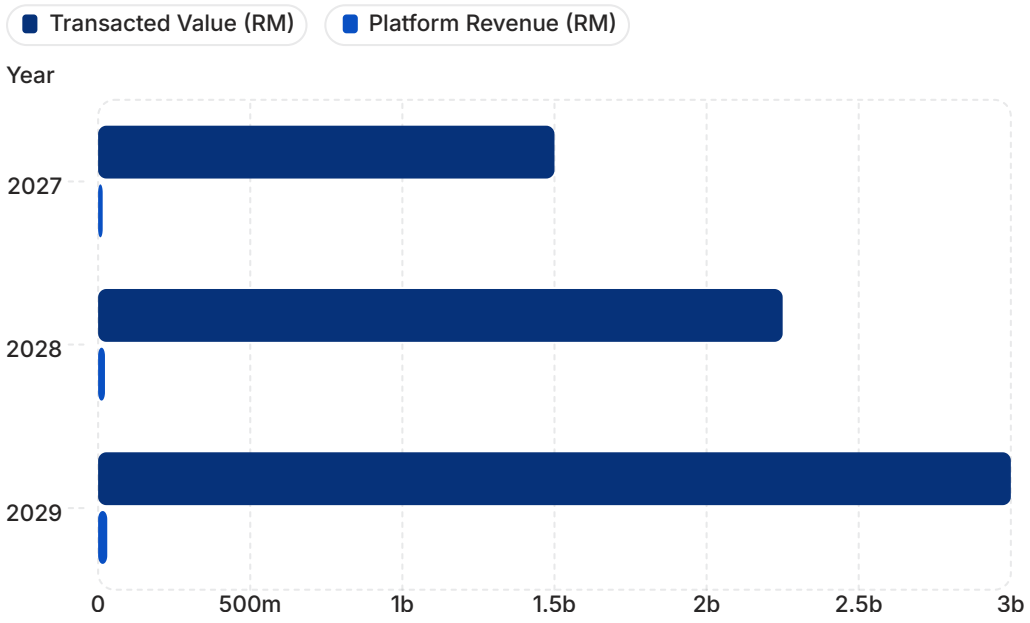
Sekian, terima kasih.

Yang benar,

(HAJI ISMAIL BIN MUDA)
Setiausaha
Federasi Koperasi Hartanah Dan
Industri Pembinaan Malaysia Berhad

LandStore.my Financial Potential

A Long-Term Asset-Linked Transaction Ecosystem



Platform Fee Model

At **1% platform fee** on transacted value, revenue scales from RM 15M in 2027 to **RM 30M annually by 2029** — against a RM 15B total land value base from Koperasi-owned land alone.

Year	Adoption	Transacted	Revenue
2027	10%	RM 1.5B	RM 15M
2028	15%	RM 2.25B	RM 22.5M
2029	20%	RM 3.0B	RM 30M

Business Model

From Single Core to Multi-Platform Leverage

Layer 1 — Core Product

TrueKredit™ & TrueKredit™ Pro: the foundational regulated lending platform

Layer 2 — Revenue Expansion

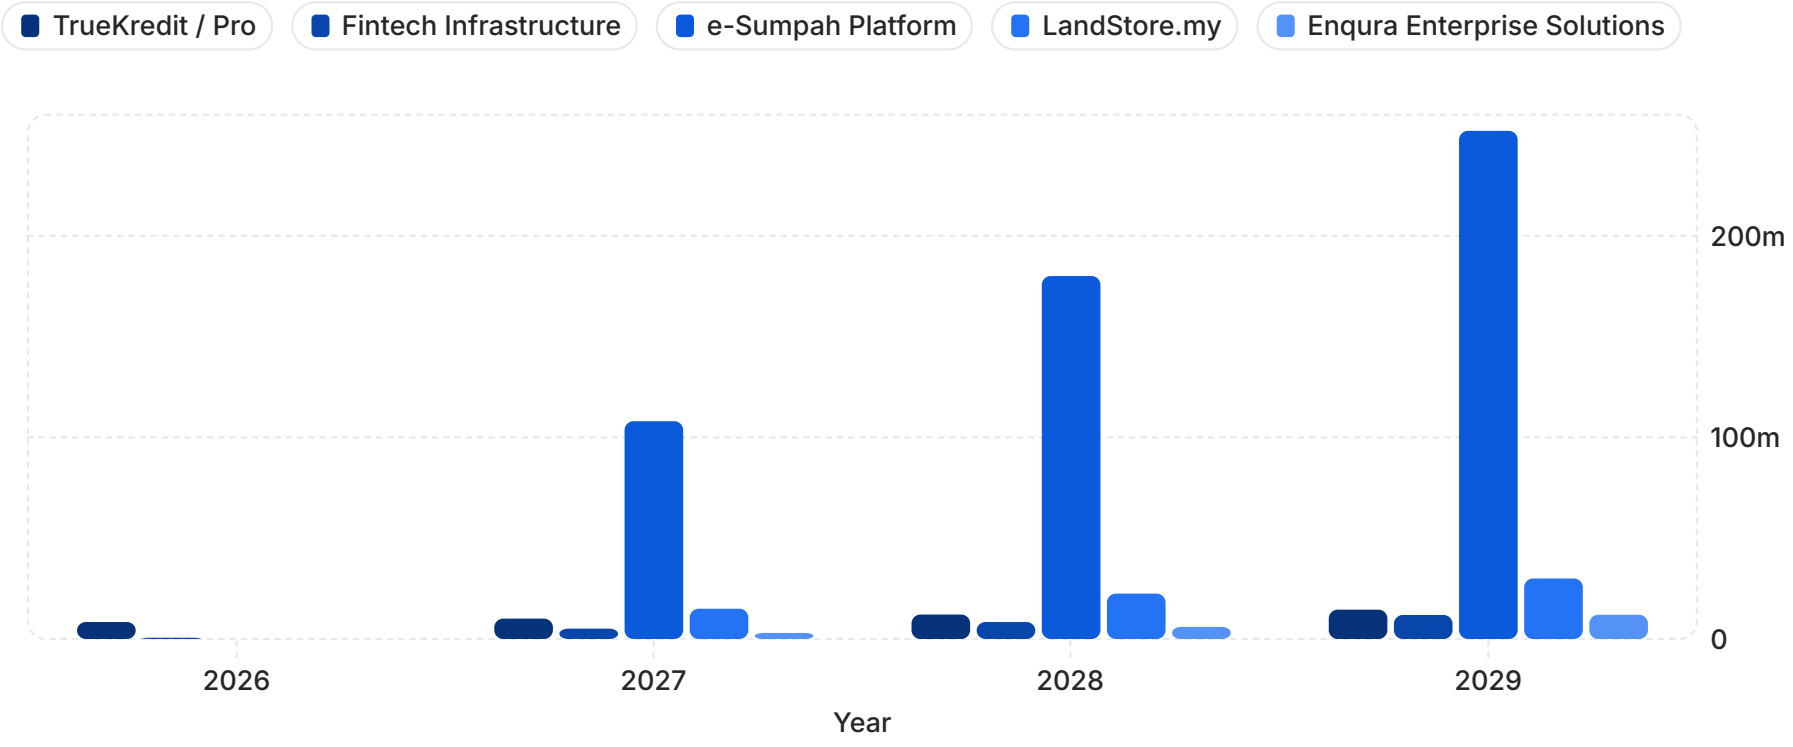
e-KYC, CTOS, SSM, digital signing, attestation, notifications, support & maintenance

Layer 3 — Strategic Platforms

e-Sumpah, LandStore.my, Enqura enterprise delivery — driving long-term platform value

This layered model creates stronger product depth, higher client stickiness, faster rollout of adjacent opportunities, and significantly lower marginal build cost for every new opportunity.

Financial Projections by Product Stream



Revenue growth is driven by expansion of the TrueKredit platform and reuse of the TrueStack infrastructure stack across multiple regulated digital platforms.

Financial Projections by Product Stream

Revenue by Product Stream (in RM Millions)

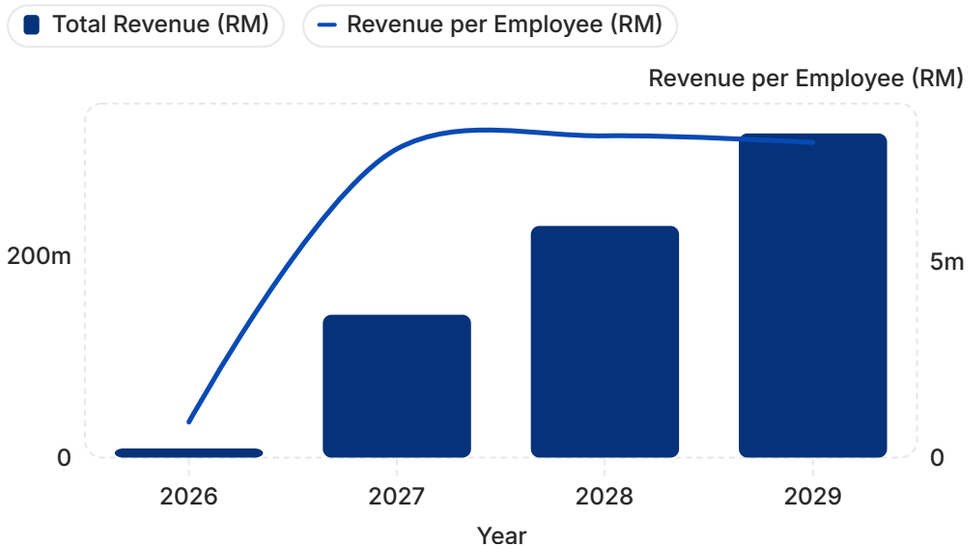
Product Stream	2026	2027P	2028P	2029P
TrueKredit / TrueKredit Pro	8.4	10.1	12.1	14.5
Fintech Infrastructure	0.6	5.1	8.4	11.9
e-Sumpah Platform	0.0	108.0	180.0	252.0
LandStore.my	0.0	15.0	22.5	30.0
Enqura Enterprise Solutions	0.0	3.0	6.0	12.0
Total Revenue	**9.0**	**141.2**	**229.0**	**320.5**

Gross Profit Summary (in RM Millions)

Metric	2026	2027P	2028P	2029P
Gross Profit	6.2	35.5	54.6	74.9
Gross Margin	68.3%	25.1%	23.8%	23.4%

Revenue Efficiency per Employee

Shared Core™ infrastructure enables revenue to scale faster than headcount



Our structure is uniquely positioned to be capital-light, while driving exponential growth.

Shared infrastructure reduces marginal build cost.

Supports a platform-led, capital-efficient growth model.

Year	Revenue	Employees	Revenue / Employee
2026	RM 9,032,000	10	RM 903,200
2027P	RM 141,234,000	18	RM 7,846,333
2028P	RM 229,039,800	28	RM 8,179,993
2029P	RM 320,452,260	40	RM 8,011,307

Our Leadership Team

Datuk Andrew Ooi

CEO

Leads commercial direction, high-level stakeholder relationships, and strategic partnerships across the regulated financial ecosystem.

Alex Lim

CMO

Leads go-to-market execution, business development initiatives, and market positioning across all product lines.

Dr. Ivan Chew

CTO

Leads technical architecture, software development, product design, and end-to-end product execution.

Agilent Western Digital KEYSIGHT TECHNOLOGIES MOTOROLA ams OSRAM MONASH University

The TrueStack Value Proposition

RM 30M

Pre-money valuation

Target equity sale: 10 - 30% max

> A **core regulated lending platform** that is immediately relevant, market-validated, and ready to deploy — paired with a **reusable infrastructure stack** and multiple high-upside adjacent platforms, all built on the same proven foundation.

Fintech Software Assets

TrueKredit™ / Pro — live, relevant, monetized

Core™ Infrastructure Moat

Reusable stack across regulated products

Platform Upside

e-Sumpah, LandStore.my, Enqura — RM 320M+ by 2029

Roadmap to IPO (2029)

Scale through execution, with no further fundraising rounds assumed before IPO.

2026

- Productize TrueKredit and TrueKredit Pro
- Deepen core lending modules, digital signing, attestation, and borrower origination
- Expand fintech infrastructure building blocks

2027

- Scale deployments in KPKT lending and digital license projects
- Grow recurring infrastructure revenue from e-KYC, CTOS, SSM, workflow, and compliance modules
- Strengthen governance, reporting, and operating discipline

2028

- Commercialize adjacent platforms more aggressively: e-Sumpah, Enqura Malaysia systems integration, LandStore.my
- Increase recurring and platform-linked revenue mix
- Prepare audit, governance, and market-readiness for public listing

2029

- Target IPO
- Position TrueStack as an IPO-ready Malaysian regulated fintech platform
- No further private fundraising assumed before listing

Illustrative 2029 IPO Valuation

416.6M

RM 416.6M
